It is hardly anticipated that the Council will go into discussion of the ordinance and resolution on Monday night, but it is thought they will be deferred until a special meeting, when they can be fully considered. The attention of the Chamber of Commerce and of industriat, commercial and labor organizations throughout the city will be called to the proposed plan of reform, so that the Council may have as fully as is possible an expression of the wishes of the people in voting on the proposed changes.

Council Committee Decides Against City
Furnishing Weapons.
Shall ambulance surgeons carry pistols?
The question was debated at length by the Council Committee on Relief or the Poor yesterday afternoon. Seme hold that since the surgeons got into all sorts of places and at all sorts of hours, sometimes into the midst of fighting, struggling mobs to rescue the wounded, they should be fully armed for their own protection. Some members couldn't see it that way. They thought a uniformed physician in the pursuit of his healing office could go anywhere unmotered, and the plan to have the city provide the firearms was rejected.

To Quickly Gain a New Complexion

(American Family Journal.)

The quickest way to get rid of a bad complexion is by the use of ordinary mercolized wax, procurable at any drug store. Just spread the wax over your face at night in the same manner you would use cold cream, and the beautifying work begins at once. Next morning when you wash this off, tiny particles of the old, worn-out skin are taken off with it. The following day more of the dead surface skin comes off, and so on until soon you have entirely discarded the faded, sallow, blotchy or muddy complexion.

The fresh, bright, healthy-hued skin underneath furnishes your new complexion. No process has yet been discovered that will give a woman such a rarely beautiful and youthful skin. Marks of age, weather, worry and disease which mar the skin, of course disappear with the skin itself. (American Family Journal.)
